

Careers In Design

April 23, 2008

Presented by:

Disneyland
RESORT

and

Arts
ORANGE COUNTY

Students go behind the scenes to learn about the planning that goes into creating a Disney Production.

Job skills and career information were provided to the students by the panel of professionals.

Students asked the panel questions about the designer's experiences and each of their career paths.

The Disney staff provided students with information about how each member contributes to the Disney Magic.

"This experience has helped me see more opportunities. The speakers gave a lot of good advice and I have learned that I should not be afraid of getting out and exploring new things, to take advantage of the opportunities I have and not to waste them."

- Student at Careers in Design

"It was exciting to listen to people involved in the areas that my students are interested in explain their jobs and the benefits they receive from working in the fields that they have a passion for. Hearing what the professionals have to say about the business can go a long way with my students."

- Teacher at Careers in Design
